THE NATION'S WARDS

Are Just Now Giving a Good Deal of Trouble—Agent Day Makes His Report—Other News.

Washington, Dec. 26.—General complaint against the issuance of government rations to Indians is made in the annual report of the agents. Captain P. H. Ray of the Shoshone agency, Wyoming, says: "They will never become self-supporting so long as the government gives them a semblance of support; neither can they begin to accumulate property so long as the supply of the necessities of life is solely in the hands of the white traders." Captain Ray recommends the removal of troublesome chiefs.

AS TO CURRENCY LEGISLATION.

Among the few members of the house who were at the capitol to-day, the prevailing opinion seemed to be that the Republicans had it in their power to pass or defeat the currency bill. The Democratic vote, it is said, will be about evenly divided, and the Republicans are generally expected to vote against the measure.

AN INDIAN TALE OF WOE.

The first information from agent Day since the agreement of the southern Utes, to return from the invaded lands in Utah to their reservation in Colorado, is given in the following dispatch received to-day from him at Dolores, Colo., and bearing date of December 24th: Colonel Lawton, Interpreter Smith and myself arrived last night, having been six days and a part of three nights in the saddle. We scouted the approaches to Indian valley, crossed Dry valley from north to south, and from Carlisle's ranch north to the Lisbon valley trail. We located fifteen lodges of BENEVOLENT INDIANS, and eleven of Utes, there having been but thirteen lodges of Utes off the reservation in Utah. The trip was made through mud and snow and the entire tribe of Wiminches and their ponies are in a deplorable condition, and are 110 miles from the agency. Wire me authority to ship supplies from Ignacio, and to buy beef and flour in open market for their immediate aid, the beef and flour to be deducted from the contracts, and the sugar, coffee, blankets, etc., to come from the agency.

A THOUSAND DOLLARS will be ample. I reaffirm all I have written regarding this affair and re-assert that the war and interior departments have been grossly misled. Wire me at Durango, as we will not reach the agency until Wednesday."

AM TO SURVEY.

The subcommittee of the house appropriations committee is considering the sundry civil bill during the holiday recess. Director Wolcott of the geological survey and Commissioner Lamoreaux of the general land office were before the commission explaining estimates for their respective bureaus and were questioned by the committee as to the advisability of reducing expenditures. Both maintained that the estimates were as low as they thought judicious. They were also asked as to recommendations for surveying of public lands to be made, under direction of the secretary, by geological survey instead of by the contract system through the surveyors general of the different states. This had been discussed by Secretary Smith with both these officers before the recommendations were made, and they were in favor of the change.

His holiness in a speech to the pontifical household said: "The faith is reviving among nations who have come to recognize that civic virtues and laws are not sufficient to restrain the masses. It is therefore of great importance that all should work together for the purpose of making religion a force in public as well as in private life. It is the duty of rulers to lend their support to religious creeds."

Maxwell Land Grant.

Denver, Colo., Dec. 26.—Judge Haller in the United States court has dismissed the suit of John Guthrie Smith, ex-against the Maxwell Cattle company et al. Smith is the sheriff of certain counties in England and the defendant company is an incorporation in the territory of New Mexico. Hence Judge Haller dismissed the suit for want of jurisdiction, but should work together for the purpose of making religion a force in public as well as in private life. It is the duty of rulers to lend their support to religious creeds."

The suit refers to the leasing of 1,714,000 acres of the old Maxwell land grant. The plaintiff asks for an accounting, and the settlement of a dispute as to a certain mortgage. There are bonds in the sum of \$1,000,000 involved.

THE DEAD OUTLAW.

Further Details on the Killing of Pablo Herrera—Sheriff Lopez' Prompt Response to the Court's Order.

The death of Pablo Herrera, the outlaw at Las Vegas, at the hands of a sheriff's posse on Monday, was the chief topic in official circles here yesterday. Herrera was in his palmy days a political leader of no mean strength. In an election row in 1891 he fatally stabbed Florencio Sandoval, and was convicted, but escaped from jail pending his sentence. Many believe that he acted only in self-defense in killing Sandoval and should never have been convicted, but however this may be, he has lived for two years as an outlaw, frequently coming into Las Vegas heavily armed and showing a disposition to defy the authorities that has had a most demoralizing effect upon a certain element in San Miguel county.

On his way to the court house on Monday Chief Justice Thomas Smith was informed that the outlaw was in town heavily armed. He at once called Sheriff Lopez before him and directed the arrest of Herrera dead or alive, and in addition he issued bench warrants to City Marshal Clay and Constable Billy Green for the arrest of Herrera. The sheriff summoned a large posse and when Herrera fired upon them he was killed. As he was falling, Green, who had joined the sheriff's posse, fired upon the outlaw, and when this occurred some of Herrera's sympathizers, who were near at hand, assaulted Green, beat him over the head and disarmed him. The parties making the assault were arrested, and are now in jail. Felipe Lopez, brother of the sheriff, is supposed to have fired the shots that did the business for the outlaw.

Yesterday it was feared that the brothers of the dead outlaw, Nicanor and Juan Jose, would come in from the country and make trouble. They came in to look after the body of the deceased, but were very quiet, evidently having made up their minds that the day for violence in New Mexico is at an end.

Local Applications Failed—Hood's Sarsaparilla Cured.

"C. I. Hood & Co., Lowell, Mass.: 'Gentlemen:—I ought to make known my experience with Hood's Sarsaparilla, so that others afflicted may learn where to find a remedy for that serious and obstinate disease, catarrh. It troubled me seriously. I had a dull aching sensation in the top of my head, and the usual discharge from the nose. I became so bad that mornings I could do nothing but hawk and spit. My lungs were also being rapidly affected, and had it not been for Hood's Sarsaparilla, I would have died.'

A Consumptive's Grave long ago. I have taken about ten bottles of Hood's Sarsaparilla, which have effectually cured me. Before resorting to this medicine, I used all the catarrh remedies, inhalants and local application, I heard of. None seemed to reach the seat of the disease. In fact I grew worse while using them. I owe my cure to the blood purifying powers of Hood's Sarsaparilla." MINNIE M. KEYSER, Pataskala, Ohio.
